RE: Update on American Liquor Products

Update on Availability of US-Made Liquor.

Due to the current US trade tensions, Manitoba Liquor & Lotteries (MBLL) has removed all remaining US-made liquor from Liquor Marts and from the Customer Self-Service (CSS) catalogue. These items will no longer be available for ordering.

Private commercial retailers in Manitoba may continue selling through their current inventory of US-made liquor but will be unable to replenish stock of those products.

As was previously communicated, all US-made liquor products previously purchased are not eligible for return.

Thank you
