General Notes					
<p>1-April - Israel: War Risk Surcharge</p> <p>In consideration of the war situation in Israel, vessel insurers have imposed an additional war risk premium surcharge on all vessels calling Israeli ports. Therefore, shipping lines announced the introduction of a War Risk Premium Surcharge with immediate effect on all cargo to and from Israel. The surcharge will apply to new bookings as well as for cargo already onwater transit and is subject to change with or without notice.</p> <p>13 - March - WASHINGTON — The Federal Maritime Commission may consider blocking foreign container ships from entering U.S. ports if it finds that the country in which they’re registered is causing choke points at various shipping locations around the world.</p>					
Western Canada					
<p>No major misses at this time</p> <p>Transit times from Vancouver Port to MBL's DC in Winnipeg are at 4-5 weeks</p>					
Eastern Canada					
<p>No major misses at this time</p> <p>Transit time from the Port of Montreal to MBL's DC in Winnipeg 3-4 weeks</p>					
California/US					
<p>Currently no issues in California or Shipping from the USA to Manitoba</p> <p>28 Feb 2025 - Potential Tariff Rates on US Alcohol</p> <p>4-March, due to Tariff period delays this notice will be enforced - "4-Feb, Effective Tuesday, MBL will be directed to pull American products off the shelves of liquor marts and will stop ordering American alcohol, the premier noted. " -</p> <p>4-March - The Government of Canada is imposing 25% tariffs on imports of certain goods from the US . The Canada Border Services Agency (CBSA) is collecting the tariffs in the form of a surtax</p>					
Argentina / Chile					
<p>Argentina - May 2025 - No issues</p> <p>Chile May 2025 - No issues</p>					

<b>Australia</b>
Australia port services are normal. No major delay at source.
<b>New Zealand</b>
24 Feb 2025 - Harvest season in New Zealand and the peak export fruit season running typically through the end of March has put high demand on vessel schedules and allocation. Please reach out to your Hillebrand Gori representative to discuss pending shipments and best routing options during this time.
<b>Europe</b>
<p>Most European ports nearing normal volume</p> <p>France - 10 Mar 2025 - Industrial action continues to impact port productivity at Le Havre and Fos sur Mer ports. 4 hour work stoppages will continue (between 11AM to 3PM) every other day with overtime and S5 shifts still suspended on March 4, 6, 10, 12, 14, 24, 26, and 28, 2025. A 72 hour strike has been announced for March 18 - 20, 2025 with all depots closed March 18, 2025. Expect shipment delays and additional costs as a result.</p> <p>France - 17 Mar 2025 - The French dockers and port workers union has temporarily suspended strike action, cancelling the 72 hour strike planned for March 18-20, 2025. The union is scheduled to meet again on March 25, 2025 to determine next steps depending on the course of negotiations.</p> <p>France - 14 Apr 2025 - The French dockers and port workers union have suspended all strike action for April.</p> <p>Germany - 10 Mar 2025 - Recent strike action at Hutchison Ports' Delta II Terminal, ongoing industrial action at French ports, and ocean carrier routing changes feeding cargo into Rotterdam have created congestion and delays for shipments moving via Rotterdam. High capacity and berth utilization at ECT and RWG Terminals.</p> <p>Germany - 20 March 2025 - Low water levels on the Rhine River have led to the imposition of low water surcharges for barge transport.</p> <p>Germany - 26 Mar 2025 - Port operations operating with delays over the past few weeks. Rail service connect delays to and from Northern German ports. Low water surcharges in effect for barge transport. All terminals above 80 yard utilization and some temporary delays in operations due to fog. Delivery restrictions still in place and interim storage charges may be incurred until container terminal delivery can be completed.</p> <p>Belgium - 26 Mar 2025 - A general strike has been announced for Belgium that will impact rail, road and airport transport and access to Antwerp terminals. Note that congestion and influx of cargo continues to impact productivity at Antwerp terminals, in particular DP World terminals. Import container and evacuation has been prioritized over new deliveries. Berth priority for export and trans-shipment container movements has restricted diverted cargo from nearby ports. Expect delays and additional waiting times and associated charges.</p> <p><b>Belgium -15 May 2025 - A national strike is planned for May 20, 2025 and will add to the current congestion, delays and critical yard capacity at terminals. Expect delays and additional waiting times and associated charges.</b></p> <p>Italy - 14 April 2025 - Road restrictions relating to truck transport will be going into effect starting this Friday April 18, 2025. Truck transport circulation will not be permitted during these times: April 18 from 2PM - 10PM local time. April 19 from 9AM to 4PM April 20-21 from 9AM to 10PM April 22 from 9AM to 2PM April 25 from 9AM to 10PM May 1 from 9AM to 10PM. This will restrict container transport operations to only 6 full days in a two week span. Congestion at port terminals is to be expected during this time.</p> <p><b>Netherlands - 12 May 2025 - Terminals are still experiencing yard congestion at Rotterdam. Delta II Terminal operations have seen delays due to labor shortages. High capacity and berth utilization at APM and RWG Terminals.</b></p> <p><b>UK - 12 May 2025 - Yard utilization at London Gateway is at critical levels and the port is experiencing high levels of congestion mostly due to the ocean carrier alliance reshuffling of shipments on Hapag and Maersk "Gemini" service schedules. Daily rail demand have increased from 13 to 22 per day and in some case have forced load capacity restrictions. Rail terminal construction should be concluded by the end of the month which should improve some of the congestion. Prepare for delays in shipments routed via London Gateway.</b></p> <p>Russian Sanctions still in place for exporting from Russia</p> <p>Ukraine is still under an act of war declaration so shipping from Ukraine to Canada is on hold</p> <p>Avg Transit Time port to Port 13-28 days country specific</p>
<b>South Africa</b>
3 Mar 2025 - Expect longer lead times for bookings on ocean carrier services from South Africa to the USA. Vessel wait time high and a combination of weather (strong winds for 5 consecutive days) and equipment issues are impacting port operations. Please contact your Hillebrand Gori representative to discuss best options for pending shipments.
Avg Transit Time 43 days
