LIST TYPES

At the time of listing, the Listing Committee will assign a list type to all products. List types may change based on sales performance and availability. The following is a basic definition of each list type.

A Items (General List)

A Items or General List represent the top 70% of profitability within each category's shelf group, all General List items will be forecasted and inventoried. General List products must be represented by a local agent to be active in the market. General List products have the greatest store distribution and the highest in stock service level.

B Items (Specialty Core)

B Items or Specialty Core represent the next 25% of profitability within each category's shelf group, Specialty Core items will be forecasted and inventoried. Specialty Core products do not require representation by a local agent. These products have significant store distribution and the second highest in stock service level.

C Items (Specialty Fringe)

C Items or Specialty Fringe represent the final 5% of profitability within each category's shelf group, Specialty Fringe items are forecasted and inventoried. Specialty Fringe products are unique or rare products and are typically higher-priced. They do not require representation by a local agent. These products have limited store distribution and a lower in stock service level.

One Time Buy

One Time Buy products are items that are purchased in limited quantities for a specific season (Holidays, Summer, Harvest, etc.) They are generally flavoured or labeled for a specific season or occasion. One Time Buy products are ordered only once per season and will be run out or delisted and do not require representation by a local agent. One Time Buy products are included in the Product Information Bulletin and are available for order by all customer types.

Limited Release

Limited Release products are items that are purchased in limited quantities usually for a specific season (Holidays, Summer, Harvest, etc.) They are generally flavoured or labeled for a specific season or occasion. Limited Release products are ordered only once per season and will be run out or delisted and do not require representation by a local agent. Limited Release products are made available to Commercial Customers through pre-commitment and are distributed to a pre-determined group of Liquor Marts.

Product Definitions and Categories

MBLL does not maintain definitions for specific products and categories. Instead MBLL uses a combination of Canada Revenue Agency (CRA), Canadian Food Inspection Agency (CFIA) Labelling Requirements for Alcoholic Beverages and permitted Food Additives and Food and Drug Regulations (FDR): Foods – Division 2 Alcoholic Beverages to define and categorize products.

MBLL reserves the right to determine markup and surcharges on unstandardized alcoholic beverages that do not meet CRA, CFIA or FDR standards or definitions.

Contact Information

For questions regarding pricing, trial pricing calculators or price change applications please contact Product Management Coordination at ProductManagementCoordination@mbll.ca.

Minimum Markup

Markups are calculated on a percentage basis of the duty paid landed cost of a particular product. The percentage calculated depends on the product category. A minimum dollar per litre markup structure is employed in conjunction with the percentage markup. Markup applied is based on the greater of the percentage or the minimum markup value.

Social Reference Pricing

Social Reference Pricing (SRP) refers to the minimum retail price, before taxes, that liquor must be sold at in Liquor Marts, liquor vendors, specialty wine stores, and hotel beer vendors in Manitoba. No liquor product sold in the province can be priced lower than this established threshold, including special promotions, LTO's or if delisted.

The SRP can be found on our [MBLL Partners Website](#) and may be adjusted annually dependent on the Manitoba Consumer Price Index (CPI [all items]) for the previous year.

Cost of Service – System Administration Fee

The System Administration Fee is a dollar-per-litre fee applied after mark-up to recover MBL's costs for SKU maintenance, as well as environmental recycling fees. The rate varies by product category and is adjusted annually based on the previous year's Manitoba Consumer Price Index (CPI).

Cost of Service –Warehouse Fee

The Warehouse Fee is a dollar-per-litre fee applied after category mark-up to recover MBL's warehousing and outbound logistics costs for products handled through the MBL Distribution Centre. Rates vary by product category and shipping origin (Domestic, USA, Import) and are adjusted annually based on the previous year's Manitoba Consumer Price Index (CPI).

Empties Handling Fee

MBL adds a fee to products in the container deposit program to offset the handling payments made to hotel beer vendors for managing empty containers. This charge is applied after all other mark-ups and fees. These fees will be reviewed on an annual basis. Empties handling fees for **Ready to drink (RTD)** products are effective **July 1, 2026**.

- **Beer & RTD Aluminum cans and PETs greater than 200 ml**
 - \$0.35 per dozen
- **Beer & RTD PET containers greater than 2000 ml**
 - \$0.07 per container
- **Beer Glass (any size)**
 - \$0.35 per dozen

Trial Pricing Calculator

The Trial Pricing Calculator for all products is available on the [MBLL Partners Website](#) for agents/suppliers to calculate an approximate retail price or case cost for any new or listed products. An updated Trial Pricing calculator will be posted to the MBL Partners website in advance of the Price Change deadline whenever freight and/or exchange rates are updated.

SIGNED TRADE AGREEMENT RATES

To qualify for the lower trade agreement rates, each agent/supplier from the originating country must supply Manitoba Liquor & Lotteries with a Certificate of Origin. This certificate must be submitted on an annual basis, or the duty rate on these products will be raised to the Most Favoured Nation (MFN) rate. These blanket certificates must indicate all products the agent/exports to Canada for one year (January 1 to December 31). A new certificate will be required for each calendar year.

Each year if a Certificate of Origin has not been received by the date required, the agent/supplier's products will revert to the higher tariff rate and the corresponding higher retail price will be implemented at the earliest convenient date after January 1.

Any Certificate of Origin received for listed products between November 1 and December 31 will be applied to the following calendar year. Certificate of Origin's submitted for new listings during this time will be applied immediately; please note that a separate Certificate of Origin must also be submitted for the following calendar year.

For more information on signed trade agreements, please contact Manitoba Liquor & Lotteries Customs Department:

PRICE CHANGE INFORMATION

Supplier lead Price Changes are available six (6) times annually for all eligible products. Manitoba Liquor & Lotteries initiated changes to freight rates, exchange rates, markups and/or other changes and will be applied for the April 1st, 2026 price change. Where possible, two weeks prior to the price change submission deadline, industry will be notified of any freight, exchange, or other changes. All requests for price changes must be submitted by the deadline dates outlined on the following page. Absolutely no extensions will be allowed.

Suppliers and Agents will only be required to submit price changes for items they wish to have the retail price adjusted for. Changes to freight and exchange will be applied to case cost and previously submitted supplier retail will be maintained unless a price change request is submitted.

Note all price change requests must be submitted on the Manitoba Liquor & Lotteries Request for [Price Change Submission Form](#):

- All listed products are eligible for price changes except for:
 - ❖ Distinctions
 - ❖ Allocations
 - ❖ Specialty Wine Store Exclusives
 - ❖ Special Orders**
 - ❖ Limited Release
- Items included on price change submission must have a retail price change. **Do not** list any products that do not have changes to their prices; retail is maintained for all products and case cost is adjusted.
- All required fields (marked with *) must be completed with up-to-date information.

**Special orders are priced upon arrival to maintain case cost. In the event of rate fluctuations case cost will be maintained and retail price will be adjusted.

Retail prices for all Allocations and Distinctions will be evaluated based on date of arrival per purchase order.

These are “open” price changes, where suppliers (or their assigned agents/representatives) can submit new case costs/retails for any of their products. Submit all price change submissions to PriceChange@mbll.ca

*For F27 ONLY

NOTES

All agent/supplier requested price reductions must remain in effect for a minimum of 60 days and will be subject to a chargeback on all inventory in the Warehouse and Liquor Stores. This chargeback for Liquor Stores and the Warehouse will be the calculated difference in invoice cost of the old retail and the new lower retail price.

- 1) Price Change effective dates are subject to change. Every effort will be made to communicate any changes to all stakeholders.
- 2) The May 1st price change is the MBLL lead price change where updates are made to established rates. All other price change opportunities are supplier lead, subject to change without notice.

OUT OF CYCLE PRICE CHANGE REQUESTS

An out of cycle price change is another option for suppliers and marketing representatives to re-quote invoice costs to adjust desired retail prices **outside the regular price change schedule**. This option comes with an administrative fee plus 5% GST.

Please see below schedule of fees per SKU (per fiscal year):

1 st request within the fiscal year	\$250
2 nd request within the fiscal year	\$500
3 rd request within the fiscal year	\$1,000
4 th request within the fiscal year	Decline

RETAIL PRICE REDUCTIONS

All supplier wholesale price quotation reductions must remain in effect for a minimum of two months (60 days) with one-time exception for the May 2026 price change.

Any request for a reduction in retail price for all **MBLL distributed products** will result in a **chargeback** to the supplier for all inventories on hand on the effective date of the price reduction. The chargeback for Liquor Stores and Distribution Centre inventory is calculated by taking the difference between the invoice cost that is required for the current retail price and the invoice cost required for the requested price multiplied by the total inventory on hand. The reduced quote will be in effect approximately one week prior to the reduced retail price to ensure that inventories received once the price change is in effect are at the same price. The date the quote is effective will be confirmed to suppliers.

Example of chargeback calculation:

- **Before the Price change request**
 - Case Cost = \$220.00 Retail Price = \$41.99
- **After the Price change request**
 - Case Cost = \$209.00 Retail Price = \$39.99
- **Inventory in the warehouse and at the stores on the effective date of the price change**
 - 60 cases remaining
 - **Difference in case cost = \$11.00**
- **Total Chargeback = \$11.00 x 60 cases = \$660.00**

AGENTS SUBMITTING PRICE CHANGE REQUESTS ON BEHALF OF SUPPLIERS

Manitoba Liquor & Lotteries will accept price change submissions from Agents on behalf of their suppliers.

The following conditions must be met:

1. The Agent accepts full responsibility to inform the supplier of these changes and ensure that future invoicing is appropriate.
2. Should any chargebacks be involved, the Agent will be held responsible for all charges, in the event the supplier refuses payment.

PURCHASE ORDER ADJUSTMENTS FOR PRODUCTS AFFECTED BY PRICE CHANGE

Changes to case cost, as part of the normal Price Change process take effect seven (7) days before the price change. Purchase Orders placed seven days or less before the Price Change effective date will reflect the new case cost.

Purchase Orders placed more than seven days before the price change will not be revised to reflect the new case cost after the price change. If required, an inventory adjustment will be made upon arrival and the agent/supplier will be charged or credited the difference.
