RE: *Single-use Plastic Prohibition Regulations – Plastic Ring Carriers*

Manitoba Liquor and Lotteries (MBLL) provided notice on April 12, 2023 of its plans to align with the Government of Canada's incoming *Single-use Plastics Prohibition Regulations*. These federal regulations, while currently before the Court of Appeals, remain in force.

MBLL continues to uphold the importance of reducing the environmental impacts associated with single-use plastics in the packaging of liquor products and supports suppliers that have taken initiatives to make packaging changes consistent with our mandates. We expect to communicate further to support this mandate in the coming months.
