CSS Release Update – Effective December 9, 2022

Product Catalogue Enhancement

Based on user feedback, the Product Catalogue will now display the current MBL Public Retail Price for all products and all customer types rather than the previous “Unit Price” that was the purchase price to the customer group. This new column is labelled as “Retail Price” and will always display retail price. Customers will see any applicable discounted price or discounts when they are placing their order in Shopping Cart.
