- Customs and Excise Duty Rates
- 2018/19 Price Change Schedule
- List types eligible for price changes
- Certificate of Origins
- Social Reference Pricing for Limited Time Offers
- Update to Cottage Winery markup and surcharges

LIST TYPES

At the time of listing, the Listing Committee will assign a list type to all products. List types may change based on sales performance and availability. The following is a basic definition of each list type.

A Items (General List)

A Items or *General List* represent the top 70% of profitability within each category's shelf group, all General List items will be forecasted and inventoried. General list products must be represented by a local agent to be active in the market. General List products have the greatest store distribution and the highest in stock service level.

B Items (Specialty Core)

B Items or *Specialty Core* represent the next 25% of profitability within each category's shelf group, Specialty Core items will be forecasted and inventoried. Specialty core products do not require representation by a local agent. These products have significant store distribution and the second highest in stock service level.

C Items (Specialty Fringe)

C Items or *Specialty Fringe* represent the final 5% of profitability within each category's shelf group, Specialty Fringe items are forecasted and inventoried. Specialty Fringe products are unique or rare products and are typically higher-priced. They do not require representation by a local agent. These products have limited store distribution and a lower in stock service level.

Seasonal List

Seasonal list products are items that are purchased in limited quantities for a specific season (Holidays, Summer, Harvest, etc.) They are generally flavoured or labeled for a specific season or occasion. Seasonal list products do not require representation by a local agent. Seasonal list products are ordered only once per season and will be run out or delisted. Seasonal list products are usually distributed to a pre-determined group of Liquor Marts and Commercial Customers. There is no appeal process for Seasonal List products.

Minimum Markup

Mark-ups are calculated on a percentage basis of the duty paid landed cost of a particular product. The percentage calculated depends on the product category. A minimum dollar mark-up structure is employed in conjunction with the percentage mark-up. Mark-up applied is based on the greater of the percentage or the minimum mark-up value.

The minimum dollar mark-up is determined as being the most recent gross profit per package size for the most commonly priced products in each product category. The minimum dollar mark-up will be updated whenever the supplier price or federal taxes or any other costs associated with the most commonly priced products in the product category change. (See mark-up schedule attached).

Social Reference Pricing

Social Reference pricing refers to the minimum retail price, before taxes, that liquor must be sold at in Liquor Marts, liquor vendors, specialty wine stores, and hotel beer vendors in Manitoba. No liquor product sold in the province can be priced lower than this established threshold, including special promotions, LTOs or if delisted.

The Social reference price rates can be found on our MBLL Partners website.

Per Package Surcharge

The Per Package Surcharge of the mark-up structure has two components: a profit component and an environmental recycling component.

This surcharge is calculated on a per litre basis. (See mark-up schedule attached)

Package Equalization

The Package Equalization on the mark-up structure is intended to provide fairness and equity to consumers in the pricing of various product sizes. This surcharge is calculated on a per package basis unique to each size. (See mark-up schedule attached)

Commercial Consideration

Commercial Consideration is applied to import products sourced from outside Canada only. This warehousing fee is applied to offset the additional costs of warehousing products due to larger inventories. (See mark-up schedule attached)

The above rates are applied to each product after the application of the appropriate mark-up rate.

Recycling Charge (MBLL Distributed Beer Only)

The containers from Manitoba Liquor & Lotteries distributed beer can be returned to beer vendors by customers for refund but cannot be reused. Manitoba Liquor & Lotteries has a contract with a private beer distributor to recycle these containers and adds a recycling charge to the price of Manitoba Liquor & Lotteries distributed beer to offset the cost of recycling the containers. The recycling charge is built into the landed cost of the product, called *Extra Cost*.

Current rates charged:

Containers	Charge added
24 bottles	\$1.68
24 cans	\$1.10
Each PET container	\$0.10

Handling Charges (Privately Distributed Beer)

Manitoba Liquor & Lotteries adds a charge to the price of privately distributed beer to offset the handling fee paid to beer vendors for accepting returns of privately distributed beer containers. This charge is added after the licensee markup but before the markup to the public. The current handling charge added to the price of privately distributed beer is \$0.34 per dozen on all package sizes.

Trial Pricing Calculator

The Trial Pricing Calculator is available on the [MBLL Partners](#) website for agents/suppliers to calculate an approximate retail price or case cost for any new or listed MBLL distributed products with the current freight and exchange rates.

An updated Trial Pricing calculator will be posted to the MBLL Partners website each quarter with the upcoming freight and exchange rates.

NOTES

1. Calculations of Per Package Surcharge for each category are done on a per litre basis but have been listed for each size.
2. Calculations of Package Equalization for each category are done on a per package basis unique to each size in the category.
3. Calculations of commercial consideration for each category are done on a per litre basis. Commercial Consideration is applied to all import products as well as beer distributed out of Manitoba Liquor & Lotteries Warehouse.
4. Retail prices are calculated by applying the greater of the minimum dollar mark-up as above or mark-up percentage as above, on the landed cost per bottle or per can cost. The Per Package Surcharge are added to this amount. For imported products and Manitoba Liquor & Lotteries distributed beer, a fixed dollar-per-litre "commercial consideration" is then added. Provincial sales tax of 7% and Goods and Services Tax of 5% is then applied.
5. All alcoholic beverages, excluding beers which are in non-deposit but recyclable containers, have an environmental protection tax built into the pricing structure (5¢ for bottles less than 750 ml and 10¢ for bottles of 750 ml or more).
6. Gift items (including liquor in special bottles, gift packs, special packaging, etc.) are priced by applying the full mark-up to the landed cost of the liquor. No mark-up is applied to the gift and/or packaging of the product.
7. Refreshment beverages include spirit, wine based coolers, malt based coolers over 4% residual sugar or sweetened with artificial sweeteners, stevia or other sweetening agents and ciders

Domestic products are subject to Excise rates only

Products with Certificate of Origins submitted for NAFTA and CETA will not have customs applied.

Additional information on [customs](#) and [excise rates](#) can be found on www.canada.ca

SIGNED TRADE AGREEMENT RATES

In order to qualify for the lower trade agreement rates, each supplier from the originating country must supply Manitoba Liquor & Lotteries with a Certificate of Origin. This certificate must be submitted on an annual basis or the duty rate on these products will lose the MFN (Most Favoured Nation) rate. These blanket certificates must indicate all products the supplier exports to Canada for one year (January 1 to December 31). A new certificate will be required for each calendar year.

Each year if a Certificate of Origin has not been received by December 31, the supplier's products will revert to the higher tariff rate and the corresponding higher retail price will be implemented at the earliest convenient date after January 1.

Any Certificate of Origin received for listed products between November 1 and December 31 will be applied to the following calendar year. Certificate of Origin's submitted for New Listings during this time will be applied immediately; please note that a separate Certificate of Origin must also be submitted for the following calendar year.

MAJOR PRICE CHANGE INFORMATION

MANITOBA LIQUOR & LOTTERIES DISTRIBUTED PRODUCTS

Major Price Changes occur four times annually (first month of each quarter - in January, April, July, and October).

These are “open” price changes, where suppliers (or their assigned agents/representatives) can submit new case costs/retails for any of their products.

Manitoba Liquor & Lotteries initiated changes, such as freight rates, exchange rates and/or mark-ups will occur during major price changes. At least two weeks before a major price change submission deadline, industry is notified of any freight, exchange, or mark-up changes.

COMPETITIVE PRICE MATCHES – MANITOBA LIQUOR & LOTTERIES DISTRIBUTED PRODUCTS

Competitive Price Matches occur in the month after the major price change (second month of each quarter – in February, May, August and November).

Submissions for competitive price changes provide an opportunity for suppliers to align their products’ prices with those of their direct competitors. When submitting a competitive price change, the request must include the specific competitor’s item name, item number and retail price.

Competitive products must be from the **same country of origin** and be the **same retail price**. Products that do not meet these criteria will not be considered for competitive price changes

As well, if the product is available in multiple sizes (375 ml, 750ml, 1140 ml, etc), all sizes of the product must compete in the competitive price match.

There are no scheduled price changes for Manitoba Liquor & Lotteries distributed products in the months of March, June, September or December (third month of each quarter).

RETAIL PRICE CHANGES

All requests for price changes must be submitted on the deadline dates outlined on the following page. Absolutely no extensions will be allowed.

Note all price change requests must be submitted on the Manitoba Liquor & Lotteries Request for Price Change form:

- *All products listed must be eligible for price changes. They must have freight, exchange or retail price change(s). **Do not** list any products that do not have changes to their prices.*
- *All required fields (marked with *) must be completed with up-to-date information.*

List types eligible for price changes:

- General
- Specialty
- Specialty Fringe *NEW*
- Seasonal *NEW*
- Duty Free
- Licensee
- Licensee Proprietary

Retail prices for Specialty Fringe items including specialty allocations and distinctions will be evaluated based on date of arrival per purchase order.

Submit all price change submissions to pricechange@mbl.ca

RETAIL PRICE REDUCTIONS

All supplier wholesale price quotation reductions must remain in effect for a minimum of three months (90 days).

Any request for a reduction in retail price will result in a charge-back to the supplier for all inventories on hand on the effective date of the price reduction. The charge-back for Liquor Stores and Distribution Centre inventory is calculated by taking the difference between the invoice cost that is required for the current retail price and the invoice cost required for the requested price multiplied by the total inventory on hand. The reduced quote will be in effect approximately one week prior to the reduced retail price to ensure that inventories received once the price change is in effect are at the same price. The date the quote is effective will be confirmed to suppliers.

PRICE CHANGE DEADLINES - FISCAL 2018/2019

NOTES

All supplier wholesale price quotation *reductions* must remain in effect for a minimum of 90 days. Any and all retail price reductions will be subject to a charge-back on all inventory in the Warehouse and Liquor Stores. This charge-back for Liquor Stores and the Warehouse will be the calculated difference in invoice cost of the old retail and the new lower retail price.

* Price Change effective dates are subject to change. Every effort will be made to communicate any changes to all customers.

AGENTS SUBMITTING PRICE CHANGE REQUESTS ON BEHALF OF SUPPLIERS

Manitoba Liquor & Lotteries will accept price change submissions from Agents on behalf of their suppliers.

The following conditions must be met:

1. The Agent accepts full responsibility to inform the supplier of these changes and ensure that future invoicing is appropriate.
2. Should any charge-backs be involved, the Agent will be held responsible for all charges, in the event the supplier refuses payment.

DISCOUNTED PRODUCTS

Delisted products must be appropriately reduced in price to enable such inventory to be cleared through liquor stores, liquor vendors and licensees. There are four classifications of products which may be discounted to clear inventories:

1. Delisted General listings
2. Delisted Specialty listings
3. Seasonal listings
4. Subsequent price reduction on products already delisted

Discount costs are borne by Manitoba Liquor & Lotteries, with the exception of General list products. For General listings, the supplier shall be charged back 25% of the supplier invoice. The cost discounts over the 25% base shall be borne by Manitoba Liquor & Lotteries.

PRICING POLICY FOR MARKETING PROGRAMS

Limited Time Offers

Manitoba Liquor & Lotteries does not participate in cost sharing of Limited Time Offers. Suppliers are charged back the full amount of the retail discount for the LTO, including the pre-buy period.

Retail pricing, including LTO cannot fall below Social Reference Pricing. Approved applications where prices that fall below SRP will be revised to meet minimum pricing. SRP is adjusted annually in accordance with CPI.

Value – Add Program

The supplier is responsible for 50% of the minimum markup, the per package surcharge and the package equalization on all value-added beverage alcohol applied to parent brands.

For Marketing programs and information please refer to the [Marketing-at-Retail Manual](#)
